

A-100 Premium HD™

Highly Digestible Alfalfa

A-100 HD™ Alfalfa is an exceptionally high yielding and high quality alfalfa with excellent digestibility. Our genetics are exclusive to Kansas from Star Seed's breeding partner. A-100 HD has an excellent agronomic package that provides a very persistent and healthy plant for top production over a broad range of soils. Our Premium HD alfalfa has proven yields and feed value and will be an ongoing leader in the alfalfa industry.
